CHARGING PAD

This pad can wireless charge three phones at once. Add another two devices through the USB outputs and you've got the perfect family Qi charger.

LEVITATING SPEAKER

This Bluetooth speaker will be the star of any room. The speaker levitates and rotates above its base. The light ring on the base displays a range of colors. Doubles as a hands free speaker for taking calls. Available in black or white.

LIGHTBOX CHARGE STATION

This charging station can simultaneously charge 8 devices. It comes with 2 lightning and 4 micro USB ports and cords that extend and retract as required. 2 USB ports are available for additional charging. The screen content can be customized and updated at any time.

FASTMOUNT PRO

The FastMount Pro uses the same technology to secure your device to the dashboard and adds 2 more incredible features. It also has an integrated card and cash storage slot with thumb lock and a flip out phone kick stand.

AIRPOWER PLUS

To Qi or not to Qi. That is the question. With the 5,000 mAh Airpower Plus, it no longer matters. Place your Qi enabled device on top for a wireless charge or flip out the cables to plug in. Fits Apple, Android and Type C connectors.

SHAKE & WAKE

Give your brand a shake. This 10,000 mAh power bank turns on with a little shake. Highend fast charge in/out Type C port Dual USB output ports. 5V/3A output.

PHONE RING DOCK

The Phone Ring Dock is a cone-shaped stand, with a flat top that has a slit built into it. Slide your phone ring into the unit. Perfect for your dashboard. The dock allows you to easily adjust your angle.

QI CHARGER

They look like coasters but they are actually Qi wireless chargers. Available in black or crystal. The crystal version glows when plugged in.

WEBCAM COVER & MIC BLOCK

Help keep your employees and staff safe from hackers with a custom shaped webcam cover. The cover sits on two plastic rails. Move it to the left to open and to the right to close. Simple, easy and safe. Best of all your logo is front and center every minute of every day.

Hackers can eavesdrop on computers with microphones. Mic Block is an easy way to prevent anyone from hearing your conversations. Plug the custom printed Mic Block into the audio jack. Your computer recognizes it as an external mic. All potential eavesdroppers are blocked.

Available in a security pack.

CAMERA DRONE

Get a new perspective. This pocket drone takes real-time pictures (including selfies) and videos, features aerobatic flight and real-time camera transmission. Fly by tilting your phone. One key auto-land. Shots 720p HD video and photos.
